 - software to be installed above, Netscape 3.02 and above
- * A CD-ROM Drive, hard disk with 5MB available, 4 MB RAM
- ** Please contact your ISP to verify which V92 features are supported.

KEY FEATURES

- **Internet Sharing Saves Money:**
 - Save on monthly internet fees by utilizing one dial-up account among multiple computers. The 56K Internet Sharing Modem also eliminates the need for additional phone lines while allowing you to build a home network without costly extra equipment or having to upgrade to broadband. This one modem does the work for two computers.
- **56K Modem plus Router and Firewall:**
 - This modem features a built-in switch router that allows dual simultaneous internet connectivity through the modem's two Ethernet ports. The modem also features Firewall Protection to give you security against outside intruders.
- **Universal Compatibility and Easy Connectivity:**
 - This 56K ethernet modem works with any computer regardless of the operating system (Microsoft Windows® 98, ME, 2000, XP, MAC OS, UNIX and Linux) - while delivering the fastest speeds possible. By utilizing ethernet connectivity, the 56K Internet Sharing Modem has only one installation and setup.
- **V.92 Features:**
 - This modem is also V.92 compatible, which means it delivers the fastest speeds possible with V.44 compression and additional features like QuickConnect for faster internet connections.
