56SX-92 Windows® External Modem

SMART ONE 56Kbps EXTERNAL V.92 DATA/FAX Modem

Introducing the New Generation of Smart One multi-standard 56K Modems specifically tailored for Windows® 98, ME, 2000, XP, Linux, and DOS users who want the fastest speeds possible and additional features like QuickConnect™ and Internet Call-Waiting for added convenience. It supports the new 56K Standard V.92 technology as well as V.44 compression. This is in addition to V.90 technology currently supported by all Internet Service Providers. That means its fast, easy to install and use. With the V.92 56K modem you get it all! Faster Web browsing. Faster connect speeds. Take Phone calls while online.

SMART FEATURES™ AT A GLANCE

KEY NEW FEATURES

- **Connect Faster:** Quickconnect™ reduces the start-up time required to establish a connection. Cut your connect time up to 50% or more
- **Download Faster:** New V.44 compression delivers up to 40% higher throughput for HTML documents & pages
- **Internet Call-Waiting:** The Modem-on-Hold feature allows you to receive incoming calls and stay connected to the Internet (Call-Waiting service from your phone company is required).
- **Controller-based Modem:** Delivering the reliability of a hardware-based connection without using your PC's processor.

FAX FEATURES

- Fax Broadcasting: Send out faxes to multiple locations
- Fax Scheduling: Take advantage of low phone rates
- Send Fax from any Windows application
- Multiple fax phone list
