56USBSL Windows® USB Modem

SMART ONE 56Kbps USB V.92 DATA/FAX SOFT MODEM

Introducing the Smart One 56K USB V.92 Windows modem. This 56k USB modem brings the convenience and flexibility of USB connectivity with simple Plug and Play installation. The 56K USB V.92 modem is designed to work with Microsoft Windows 98, ME, 2000, and XP systems to deliver the fastest speeds possible and additional features like QuickConnect™ and Internet Call-Waiting. The Smart One™ modem supports all the new standard V.92 features. This is in addition to V.90 technology currently supported by all Internet service providers. That means it's fast, easy to install and use. With the 56USB V.92 modem you get it all! Faster Web browsing. Faster Internet Access. Take phone calls while online.

SMART FEATURES™ AT A GLANCE

KEY NEW FEATURES

- Universal Serial Bus (USB) delivers the fastest and most convenient hook up, you don't even have to shut off your computer.
- Connect Faster: Quickconnect reduces the start-up time required to establish a connection. Cut your connect time by up to 40% or more.
- Download Faster: New V.44 compression delivers up to 40% more throughput for HTML documents and pages.
- Internet Call-Waiting: Modem-on-Hold allows you to receive an incoming call and stay connected to the Internet. (Call-Waiting service from your phone company is required.)

FAX FEATURES

- Fax Broadcasting: Send out faxes to multiple locations
- Fax Scheduling: Take advantage of low phone rates
- Fax Merging: Combine documents from different applications into one fax
